Joe,

Concur with your request to cease submitting Progress Reports.

While we concur that you have substantially completed the sedimentation basin restoration work, we are gathering what I'll term a punch list of items for you to address. I'm still awaiting some input so am unable to forward that punch list to you at this time, but should be able to within the next few business days.

Concur that the Final Report, per paragraph 25 of the Order, shall be due on or before 14 August.

Subject: Request to cease submission of weekly progress reports - WGSL

Hello Steve,

The most recent progress report noted that all items under the AOC task list are now complete, and we are working on the final documentation report. Waste Management is requesting EPA approval to cease the submission of the weekly progress reports. The only item that is still uncompleted is the final 50 feet of the box culvert, which is not part of the AOC requirements. Since the report documenting completion of the sedimentation basin retrofit was submitted on June 15°, and the AOC requires submission of the final report within 60 days, WMH believes the final report is due on August 14, 2010. Please also acknowledge that this date is correct. Thank you.

Best regards,

Joe

Joe Whelan

General Manager Waste Management of Hawaii 808-668-2985, ext. 15 Office 808-668-1366 Fax 808-479-4610 Mobile

Waste Management's landfills provide over 17,000 acres of protected land for wildlife habitats and 15 landfills are certified by the Wildlife Habitat Council.

Waste Management recycles enough paper every year to save 41 million trees. Please recycle any printed emails.
